

# GANGADHARA GOOTI

## FULL STACK DEVELOPER

+91 6302350217 | [gangadhargdvs0@gmail.com](mailto:gangadhargdvs0@gmail.com) | Pulivendula, AP, India | [GitHub](#)

Full Stack Developer with hands-on experience building scalable, responsive web and mobile applications for startups across India and Ireland. Proficient in React/Next.js frontends, Flutter cross-platform mobile apps, and RESTful API backends using Node.js and NestJS. Focused on performance optimisation, secure API design, reusable component architecture, and clean deployment-ready code.

## TECHNICAL SKILLS

**Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, TailwindCSS, Material UI, Bootstrap, Context API

**Backend:** Node.js, Express.js, NestJS, Elysia, RESTful API design, JWT Authentication, role-based access control

**Mobile / DB:** Flutter · Dart | MongoDB · MySQL · Firebase (Auth, FCM, Realtime DB, Firestore)

**Tools:** Git, GitHub, Postman, Vercel, Render, Hostinger, VS Code, Tauri

## PROFESSIONAL EXPERIENCE

**Junior Developer** · [Vectorsoft LLC](#) | Hyderabad, India

May 2026 – Present

- Built the company's website from scratch using Next.js and Elysia, scoring 99% SEO and 100% GEO (Google/SEMrush) with every page performing 97+ across all metrics — fully responsive and production-optimized.
- Implemented Zoom Video SDK integration within the company's Tauri desktop application, delivering a fully responsive, performance-optimized video-calling experience with comprehensive error handling.
- Currently developing the HomeCare Android application in Flutter, extending the company's platform to mobile alongside the web product.

**Stack:** Next.js, Elysia, Flutter, Tauri, Zoom Video SDK

**Independent Developer** · [Self-Directed Projects](#) | Remote

Aug 2025 – Apr 2026

- Developing Aethra, an AI desktop companion app — implementing real-time 3D avatar animation, word-boundary-driven lip sync, and a procedural gesture/mood-detection system using Tauri, React, and the Gemini API.
- Built Vedika, a venue-booking platform for weddings and events — covering banquet halls, corporate events, and celebrations — deployed on Vercel.
- Built and delivered a desktop billing software for a medical shop using Electron, successfully deployed for the client's day-to-day billing operations.

**Full Stack Developer** · [Zyrone Energy](#) | Gujarat, India

Mar – Jul 2025

- Engineered 6 real-time operational modules in Flutter + NestJS, enabling field teams to manage scalable workflows directly from mobile and replacing a fully manual coordination process.
- Designed a modular NestJS RESTful API layer with JWT-secured routes, structured error handling, and separation of concerns — following backend best practices for maintainable, production-ready code.
- Integrated Firebase Cloud Messaging and Realtime Database to deliver push notifications and live data sync across 2 platforms (iOS and Android), collaborating closely with field operations stakeholders.

**Stack:** Flutter, Dart, Firebase, NestJS, Material UI, RESTful APIs, Context API

**Frontend Developer** · [Tech Kshatriyas](#) · [Comfort Floors \(Freelance\)](#) | India / Ireland

Nov 2024 – Mar 2025

- Delivered a responsive Next.js 14 + TypeScript website scoring 92/100 on Google PageSpeed Insights through performance optimisation — code splitting, lazy loading, and zero cumulative layout shift.
- Built and deployed a custom React + Node.js workflow management application for 1 cross-functional Irish client team, replacing spreadsheet-based tracking across 3 core business workflows.
- Developed reusable, scalable TailwindCSS component libraries across 2 projects, establishing consistent design systems and reducing future feature development effort.

**Stack:** Next.js, TypeScript, React.js, Node.js, TailwindCSS

## PROJECTS

**G-Mart** — [React](#) · [Node.js](#) · [Express](#) · [MongoDB](#) · [TailwindCSS](#)

- Built a scalable full-stack e-commerce platform with 5 modules — product catalogue, cart, checkout, order management, and admin dashboard — implementing role-based access control, JWT authentication, and RESTful APIs.

**SuperCabs** — [Flutter](#) · [Dart](#) · [Firebase Auth](#) · [FCM](#) · [Firestore](#)

- Developed a cross-platform mobile rental app with 3-step OTP onboarding, document verification workflows, and real-time push notifications for booking and driver coordination across 2 user roles.

**Hydrox** — [Flutter](#) · [Dart](#) · [Firebase](#) · [Material UI](#)

- Designed and deployed a responsive water delivery system with customer-facing order placement and a 2-tier admin panel for branch assignment, approval routing, and real-time delivery tracking.

## EDUCATION

**B.Tech — Computer Science & Engineering, JNTUA College of Engineering**

2022 – 2025 | GPA 7.67

**Diploma — Computer Science & Engineering, Loyola Polytechnic College**

2019 – 2022 | 85.24%

## CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900) · NPTEL Social Innovation in Industry 4.0 · edX Front-End Apps with React
