

GANGADHARA GOOTI

FULL STACK DEVELOPER

Pulivendula, AP | +91 6300355608 | gangadhargdvs0@gmail.com | [Portfolio](#) | [GitHub](#)

SUMMARY

Proficient Full Stack Developer specializing in building comprehensive web and mobile applications using React, Next.js, Node.js, Express.js, NestJS, Flutter, and MongoDB. Experienced in designing high-performance APIs, responsive UIs, and real-time application features for startups and international clients. Expertise in implementing clean architecture principles and delivering production-ready solutions with optimized performance and secure backend integrations.

TECH SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, TailwindCSS, Bootstrap, Material UI
Backend: Node.js, Express.js, NestJS
Mobile: Flutter, Dart
Database: MongoDB, MySQL, Firebase
Tools : Git, GitHub, Postman, Vercel, Render, Hostinger

SOFT SKILLS

- Leadership
- Communication
- Team Collaboration
- Root Cause Analysis
- Task Prioritization

PROFESSIONAL EXPERIENCE

Full Stack Developer — Zyrone Energy, Gujarat, India **Mar 2025 – Jul 2025**

- Constructed real-time operational modules for the internal mobile app using Flutter & NestJS, resulting in a 15% reduction in operational latency.
- Structured secure REST APIs with NestJS, adhering to clean architecture standards and improving routing efficiency by 20%.
- Implemented state-managed mobile screens with authenticated workflows, reducing load time by 1.2 seconds per user session.

Tech Stack: Flutter, Dart, Firebase, NestJS, Material UI

Frontend Developer — Tech Kshatriyas, Vijayawada, India **Jan 2025 – Mar 2025**

- Launched the official company website using Next.js + TypeScript, achieving 92/100 on Google PageSpeed Insights and a 30% increase in brand presence.
- Built modular UI components with TailwindCSS, boosting site performance on all devices and cutting frontend development time by 25%.

Tech Stack: Next.js, TypeScript, TailwindCSS

Frontend Developer — Comfort Floors & Bathrooms Ltd, Ireland **Nov 2024 – Jan 2025**

- Developed a custom workflow management web application, saving the business 8 hours per week on internal operations.
- Created scalable React UI components and Node.js backend modules, supporting a growth of up to 20 simultaneous users.

Tech Stack: React.js, TailwindCSS, Parallax

PROJECTS

SuperCabs – Mobile App

- Architected a scalable rental app using Flutter, Dart, and Firebase, featuring real-time capabilities for an estimated 500 potential users.
- Integrated OTP login, document verification, and instant notifications, leading to a 40% smoother rental workflow and 25% increase in user engagement.

Tech Stack : Flutter , Dart, Firebase , FCM

Hydrox – Water Delivery App

- Engineered a streamlined water ordering system with easy workflows, reducing order placement time by 2 seconds.
- Established an end-to-end admin approval and branch assignment system, enabling real-time tracking for 100+ daily orders.

Tech Stack : Flutter , Material UI, Firebase, Dart

G-Mart — E-Commerce Platform

- Created a full-stack e-commerce solution supporting 50 unique product listings and integrated user authentication, cart, and checkout features.
- Developed an admin dashboard for efficient product, payment, and delivery monitoring.

Tech Stack : React.js, TailwindCSS, Node.js, Express.js, MongoDB

Web Medical Management System

- Implemented secure CRUD operations and appointment workflows, designed to manage up to 75 appointments daily.

Tech Stack : PHP, MySQL, Bootstrap, HTML, CSS

EDUCATION

B.Tech — Computer Science & Engineering	2022 – 2025
JNTUA College of Engineering GPA: 7.67	

Diploma — Computer Science & Engineering	2019 – 2022
Loyola Polytechnic College (YSRR) Percentage : 85.24%	

CERTIFICATIONS

- **Microsoft Certified:** Azure Fundamentals
- **NPTEL —** Social Innovation in Industry 4.0
- **EDX —** Developing Front-End Apps with React
